- mantenimento della temperatura degli arti a contatto
- assorbe l'umidità durante l'utilizzo e la rilascia una volta sollevati
- alta traspirabilità
- adatto per uso molto intensivo (500.000 Martindale)
- eccellenza ecologica: tessuto 100% riciclabile e supporto 100% biodegradabile

- keeps constant temperature of the body parts in contact
- absorbs humidity during use and it releases it once finished using the product
- suitable for intensive use (500.000 Martindale)
- ecological excellence: 100% recyclable fabric and 100% biodegradable wave

- maintient de la temperature des parties en contact
- absorbe l'humidité pendant l'utilisation et le libère une fois non utilisé
- haute transpirabilité
- adapte pour une utilisation intensive (500.000 Martindale)
- excellence écologique : tissu 100% récyclable et support 100% biodégradable
