- mantenimento della temperatura degli arti a contatto
- assorbe l'umidità durante l'utilizzo e la rilascia una volta sollevati
- alta traspirabilità
- adatto per uso molto intensivo (150.000 Martindale)
- eccellenza ecologica: tessuto 100% riciclabile e supporto 100% biodegradabile

- keeps constant temperature of the body parts in contact
- absorbs humidity during use and it releases it once finished using the product
- suitable for intensive use (150.000 Martindale)
- ecological excellence: 100% recyclable fabric and 100% biodegradable wave

- maintient de la température des parties en contact
- absorbe l'humidité pendant l'utilisation et le libère une fois non utilisé
- haute transpirabilité
- adapte pour une utilisation intensive (150.000 Martindale)
- excellence écologique : tissu 100% recyclable et support 100% biodegradable

- l'intero contenuto chimico del prodotto è del 0,01%
- nessun PVC, chloroprene o prodotti chimici correlati
- tutti i compositi sono certificate non dannosi per l'uomo e per l'ambiente
- tutti i materiali sono classificati come completamente naturali biodegradabili o come completamente riciclabili
- idrocarburi alogenati <100 ppm
- metalli pesanti <100 ppm
- riutilizzo del materiale: 50%
- adozione di direttive e principi internazionali di uso dell'acqua nel processo: prodotti tutti componenti sono definiti come biologici o come nutrienti tecnici

- all chemicals in product identified down to 100 ppm level (0.01%)
- no PVC, chloroprene, or related chemical at any concentration
- all materials and chemicals assessed for toxicity to human and environment
- all materials defined as technical nutrients to be recycled or biological nutrients to be composted
- halogenated hydrocarbon content <100 ppm
- heavy metal content (Pb, Hg, Cd, Cr+6) <100 ppm
- material Reutilization score >=50
- adopt company wide water stewardship principles or guidelines all components are defined as biological or as technical nutrients

- l'entier contenu chimique du produit est de 0,01%
- pas de PVC, chloroprène ou produits chimiques liés
- tous les matériaux sont certifiés non dangereux pour l'homme ni pour l'environnement
- tous matériaux sont classifiés comme complètement naturels et biodegradables ou complètement recyclables
- hydrocarbures alogénés <100 ppm
- métaux lourds <100 ppm
- réutilisation du matériel: 50% minimum
- adoption des directives et principes internationaux de l'utilisation de l'eau pendant le processus de production
